

Reliable and affordable hosting services since 1998.

QiQ take complex web technologies and simplify them for the everyday web site owner or developer. Our hosting services are designed to be powerful, affordable and relevant.

QiQ hosting serves the needs of businesses and individuals seeking a reliable hosting solution backed by professional, yet friendly, round the clock support.

By utilising our established relationships with state of the art data centres located on three continents we can provide not only a reliable hosting environment but also deliver your content at lightning fast speeds to wherever in the world your clients are located.

- 12 months service for one low yearly payment
- Regular backups
- Unlimited fast and friendly email support
- 30 day money back guarantee
- Fast servers with multiple Internet connections
- Instant account activation
- Real-time online control panels
- Automated server monitoring to minimise downtime
- QiQ is a Member of Nominet the UK domain registry and also registered with AUUDA (The Australian Domain Name Administrator) as a reseller.

QIQ HOSTING SERVICES

QiQ offer just five hosting solutions which are generous enough in features to meet the needs of the most discerning customer.

QiQ Premium

Our entry hosting product is for individuals and small businesses who require a comprehensive hosting solution which they are happy to manage and implement themselves.

QiQ Premium Plus

Premium Plus includes over 30 popular web applications including Wordpress, Coppermine and Joomla - all easy to install thanks to our script installation system.

You could build your first web site without the need for complex programming languages using our innovative Web Builder application. More advanced programmers may like to take advantage of features such as Cron Jobs, SSH access and additional FTP account which are also included.

QiQ Platinum

With generous disk space and bandwidth allowances, your own account manager and our Web Disk feature, QiQ Platinum Hosting is our ultimate web hosting account.

QiQ Custom

Our four packages meet the needs of over 90% of our clients. However, if you require something custom, perhaps a Virtual Private Server, Dedicated Server or cloud solution we would be happy to quote on your requirements.

QiQ Email Only

If you're not looking to develop a web site just yet, but would like your own email system, the QiQ Email Only account is for you.

QIQ DOMAIN NAMES

A domain name is your address on the Internet. It's what your clients and friends will use to access your web site or to contact you by email.

QiQ sell a variety of different domain types, each for two years. After two years, you can simply renew your domain again. Popular domains extensions may be ordered in real time and more exotic name types can be purchased on your behalf.

You do not have to purchase your domain through QiQ to use our hosting, but a QiQ domain is instantly activated and comes pre-configured and ready to use with your account so your up and working as soon as possible.

CUSTOMER SUPPORT

QiQ is spread geographically with representation in both the northern and southern hemispheres. So, like the Internet, QiQ rarely sleeps and we will be there to answer any questions and ensure the servers keep serving your content.
